

Summer Assignment 6th Grade Math

Over the summer, you will complete IXL assignments to retain your math skills. It is awesome to keep your mind refreshed with your math knowledge. There will be three math assignments due each month of the summer. Completion of all at once is possible or pace yourself and complete the assignments for each month. A grade of 80 or above Smart Score on each assignment will be needed for it to be counted as complete. If your scores are 80 or above, feel free to challenge yourself to complete more skills than the required ones listed below. Hope you have a happy, safe summer and enjoy your free time. Looking forward to seeing some fantastic scores upon our return to school.
